The Daily Courant.

Tuesday, February 20. 1722.

London, February 20.

Yesterday arrived a Mail from Holland.

Constantinople, January 6.

THE Embassy which the Port has resolved to send to Moscow will set out thither in a short Time. The Russian Minister here has notifyed to the Port by Order from the Czar, that he has taken upon himself the Stile of Emperour of all Russia; that he will grant free Passage to Merchandize from China through Muscovy to Turkey; and that his military Preparations are not designed to give any Umbrage to the Port, &c. The Grand Signior seems well satisfied with these Assurances, and has given the Imperial Title to the Czar in a Letter wrote to him on that Subject. The Grand Visier has, on this Part, assured the Ministers of Christian Princes, that the military Preparations of the Port ought not to give them any Apprehension, most of the Troops being designed upon a Secret Expedition into Asia: Nevertheless, the Behaviour of the Port towards the Venetians cannot but create Suspicion of a Rupture; the last Letters from that Republick having been sent back unopened, and with this Intimation---- That their Differences cannot be terminated but with the Governour of Napoli di Romania.

Copenhagen, Feb. 7. 'The Commissaries of Sweden and Denmark appointed to enquire into the Confiscations made on both Sides during the last War, are now assembled at Helsingbourg, nevertheless 'tis reported that they are to repair to Elsinore before their Matters are finished. The Mortality among the Cattle in Schonen is spread into the other Swedish Provinces, and therefore very strict Orders are published here not to suffer any Cattle to be brought from thence hither. M. Schested, formerly Secretary of State, sets out in a few Days from hence to his Government in Holstein. Yesterday a Priest of 60 Years of Age, and a Joiner, were brought Prisoners hither, having cut the Throats of two Merchants at a Village not far from this Place. The two latter arriving at their Inn found it very much crowded, and for their better Conveniency they went to lodge at the Priest's House, and were well received; but the Priest perceiving they had good Purses, took an Opportunity to consult with his Acquaintance the Joiner, and resolved to have the Money, they suffered these Travellers to sleep for a while in Safety, but about Midnight cut their Throats.

Stockholm, Feb. 10. Our Naval Force is to consist of 18 Ships of the Line, 10 Frigates, 80 Galleys, 8 Brigantines, 4 Galeasses, and 14 flat-bottom'd Barks: It is resolved to keep in Pay 16000 Seamen, and 10000 Marines: A Fund of 2000000 of Rixdollars is assigned for the above Expence. All the Creditors of the Admiralty are to be cleared at the End of this Month, and such as shall make Deliveries for the Marine this Year are to be paid in ready Money. On the 7th Instant the King set out from Kongsore towards Gottenbourg, from whence 'tis believed his Majesty will make a Tour to Schonen, and other Provinces. Velt-Marschal Count de Reinschild died Yesterday, in the 72d Year of his Age.

Hambourg, Feb. 13. 'Letters from Dantzick 'say, that the Dutchess of Mecklenbourg is so far 'from being brought to bed that 'tis even doubted 'if she be with Child; and 'tis said that some 'Reasons have been discovered for believing the 'late mentioned Conspiracy at Domitz to be a 'meer Fiction. Letters from Petersbourg say, that '24000 Men are employed in making a new Canal 'to carry off the Waters in case the high Tides 'should again flow into the City. Letters of the '7th from Copenhagen say, that M. de Lowenor, 'the Danish Envoy appointed for Berlin, is not yet 'set out for that Place, but would begin his Journey 'thither this Week. Those Letters add, that the 'King of Denmark has appointed a Minister to go 'to Petersbourg. The Court of Berlin is gone into 'Mourning for the Death of the Dutchess of Zell, 'and all the Officers, and Councellours of Court, 'are obliged to wear Black. Advices of the 10th 'from Copenhagen say, that the King has made a 'Promotion of Councellours of State, and that his 'Majesty has appointed for Councellours of Conferences M. Held, Deputy of Finances; M. 'Schlange; M. Haguedorn, Resident at Hambourg; 'M. Weyse, Director General of the Posts; M. 'Mellen; M. Bartolin, and M. de Rantzow, Provincial Councellour and Bailiff: It is said also, 'that further Changes were expected to be made 'at the Court of Denmark.

Hambourg, Feb. 20. 'The Ministers of Holstein continue in great Uncertainty about the Affairs of the Duke their Master; particularly as to his Marriage. Advices from Copenhagen speak of an Alliance in Agitation between Sweden, Denmark, and another Potentate; in the mean time, M. Bestuchef, the Czar's Resident at Copenhagen, is under no small Concern for his successless Demand touching Passage Custom free for Russian Ships through the Sound: It is said, that Minister expects to be recalled from the Danish Court. The Post of this Day from Copenhagen brings an Account, that his Danish Majesty has been graciously pleased to remit to his Subjects all extraordinary Contributions of War for the Year ensuing, which has caused extream Satisfaction throughout the Kingdom.

Hague, Feb. 20. 'Conferences are still held with the Admiralties about the Zealanders Project for fitting out Privateers against the Algerines; but it begins to be believed it will be rejected, and that no Ships will be sent from hence against the Algerines this Year. The States of Holland are to adjourn To-day, without having yet been able to come to a Determination of the Matters they had in Deliberation. It is said they are not to re-assemble till the usual Time the next Month. The Deputation to Zealand concerning the Farming their Domains, is put off till it is seen what are their Proposals for regulating their Marine Affairs without parting with their Domains. Deputies Extraordinary on this Occasion are expected hither from that Province, or that full Powers will be sent to Persons here to enter in Negociation.

Paris, Feb. 21. Yesterday an Advertisement was posted up, by which it appears, that the first List of the Paper Effects liquidated by the Commissioners of the Council, has been delivered to the Notaries, and that the Proprietors of the said Effects are to enquire of the Notaries, who have made their respective Declarations, whither they are comprized in the said Lists, whereof one is to be published every eighth Day; and finding therein their Numbers, they shall be obliged to put their Effects into the Hands of the said Notaries, which are afterwards to be exchanged against Certificates to be employed in the Manner already prescribed, or that shall be prescribed hereafter. It is assured, that the Directors of the India Company begin anew to list Men and Women for the new Colonies of the Mississippi, and that they have already caused to be shipped off several Companies, each consisting of about 60 Persons.
